

Mustafa Nejm

Master's Student in Reliable Systems Engineering

Västerås, Sweden

mustafa.nejm03@gmail.com — +46 727 619 934 — [linkedin.com/in/mustafa-nejm](https://www.linkedin.com/in/mustafa-nejm)

Profile

Ambitious and solution-oriented Master's student in Reliable Systems Engineering at Mälardalen University. Experienced in structured environments with high standards for safety, quality, and precision. Skilled at adapting to new challenges, collaborating in teams, and working independently when needed. Combining technical studies with practical experience, I am well-prepared for roles in engineering, production, or technology where reliability and analytical thinking are key.

Career Objective

My goal is to develop as an engineer in the field of reliable systems and contribute to safe, efficient, and sustainable technical solutions. I am seeking a part-time position or summer job where I can apply my technical skills and grow in a professional environment.

Education

M.Sc. in Reliable Systems Engineering

Aug 2023 – Jul 2028 (ongoing)

Mälardalen University, Västerås

- Focused on the development and analysis of reliable and robust technical systems.
- Courses include programming, embedded systems, electronics, mechanics, and systems engineering.
- Hands-on experience in:
 - Object-Oriented Programming, Programming for Embedded Systems
 - Electrical Measurement Systems and Complex Electronic Systems
 - CAD, Material Science, and Mechanics
 - Requirements Engineering, Human Factors, and System Architecture
 - Probability Theory, Multivariable Calculus, and Linear Algebra

Natural Science Programme

Aug 2019 – Jun 2022

Cybergymnasiet, Stockholm

- Focused on mathematics, physics, chemistry, and biology.
- Developed strong analytical and problem-solving skills.

Experience

Lifeguard & Gym Attendant, Gnesta Municipality

Aug 2019 – May 2023

- Responsible for safety and supervision in the swimming hall and gym.
- Handled customer service, cash management, and front-desk duties.
- Promoted health and well-being through active customer engagement and adherence to safety routines.

- Contributed to a safe and efficient operation through teamwork and problem-solving under pressure.

Home Care Assistant, Gnesta Municipality

Jan 2021

- Ensured clients' well-being by assisting with cleaning, shopping, and meal preparation.
- Handled administrative tasks and documentation.
- Collaborated with healthcare staff to provide safe and high-quality care.
- Worked independently and maintained clear communication to ensure trust and efficiency.

Technical Skills

- Programming: C
- Tools: MATLAB, LabVIEW, Git, Visual Studio Code
- CAD Software: SolidWorks
- Operating Systems: Windows, Linux, Mac

Core Competencies

- Embedded and Electronic Systems
- System Design, Reliability, and Safety Engineering
- Data Analysis, Probability, and Statistics
- Mechanical and Electrical Measurement Techniques
- Technical Documentation and Requirements Management
- Analytical Thinking, Problem Solving, and Team Collaboration

Certifications and Courses

Swedish Sea Cadet Corps – Summer School, Märs garn 2

Jul 2019

- Completed introductory training in seamanship, discipline, and teamwork.
- Learned fundamentals of rowing, sailing, and communication (including Morse code).
- Gained understanding of the Swedish Armed Forces and maritime operations.

Interests

Technology, innovation, programming, training, sports, digitalization and family activities. I am interested in how reliable systems and modern technology can improve everyday life and contribute to sustainable development.
